

# Water Vacuum WSP 2000

# Multi-purpose Water Vacuum

- ❑ Suitable for vacuuming liquids at various types of location for subsequent transport to a collection point.
- ❑ The unit is designed for continuous vacuum operation and can provide simultaneous pumping to a remote location.

Easy to empty - simply open the tap to drain off the liquid.

Bottom opening for emptying residues and larger items - simply release the foot lever and pull back the cover.

Inside view showing the pump and the float switch for the suction motor and pump.

Easy-to-remove pump - simply lift out the pump and open the residue cover for full access and easy cleaning.

- ❑ Balloon-tyre wheels make the unit easy to handle and provide good ground clearance with optimum manoeuvrability.
- ❑ Powerful 1.2 kW suction
- ❑ Higher powered motors available on request
- ❑ The vacuum motor switches off automatically when the unit reaches full capacity to prevent excessive vacuum.
- ❑ Removable pump allows easy cleaning

Housing	GFRP
Motor power (kW)	1,2
Voltage (Volt)	230
Frequency (Hz)	50
Vacuum (mbar)	230
Volume flow rate (m <sup>3</sup> /h)	174
Suction connection (mm) (mm)	50 Ø
Weight (kg) (with/without pump)	44/54
Protection rating	IP x4
Variable capacity (litres)	45
Length x width x height (mm)	850 x 700 x 950
<b>Also available with optional pump:</b>	
Flow rate (m <sup>3</sup> /h) (with 1m pumping head)	18
Maximum pumping head (m)	9
